

Aspire Software: Time-based Scheduling

Aspire business management software provides janitorial businesses with the flexibility and control of time-based scheduling, reducing scheduling errors and ensuring accounts are maintained on a tight time schedule. Office staff can now better manage their employees in the field using hourly or quarter-hour scheduling. This provides extremely flexible scheduling when client accounts need to be accessed at specific times.

Now, work tickets can be scheduled with precision, allowing managers to schedule specific start times and quickly adjust on the fly if needed. This prevents double booking of client accounts and keeps field staff working, traveling, and operating efficiently. It allows office employees to set up “work windows” that enables field staff to access properties on time and at specified times.

With time-based scheduling in Aspire, janitorial organizations can:

- Reduce downtime of field staff
- Avoid double booking of properties
- Enable better staff flexibility with time-based scheduling
- Schedule jobs based on a specific time that is best for you or your client
- Allow office staff to better track employees in the field with in-platform absentee notifications

Let Aspire help your janitorial business grow and provide unmatched attention and service to your clients.

Based on verified customer reviews.

Aspire
Software:

Absentee Notifications

Aspire business management software provides a comprehensive platform for managing all aspects of your janitorial business, which also aids organizational growth by standardizing processes across your business. Most organizations strive to hire the best people yet struggle to manage their staff in the field. Aspire helps businesses to optimize their field operations with solutions for scheduling, time tracking, task management, and site audits, as well as other critical features required in the janitorial industry.

One of those critical features is absentee notifications, a key feature of the Aspire platform. Absentee notifications are tightly linked to our time-based scheduling to provide a comprehensive tool for managing field staff and client locations. Absentee notifications track employee clock-ins and notifies managerial staff if an employee does not clock in by a specified time. These notifications can be sent via SMS to supervisors if employees do not clock in by the start time. Notifications can also be sent via SMS if employees call in sick.

With absentee notifications in Aspire, janitorial organizations can:

1. Get SMS notifications when employees do not clock in or call in sick
2. Respond quickly to scheduling changes in the field
3. Achieve greater alignment with all business processes and data managed within a single solution
4. Better manage the overall performance of staff as well as customer communications
5. Forecast scheduling and respond instantly to field staff issues and changes

Let Aspire help your janitorial business grow and provide unmatched attention and service to your clients.

Aspire Software:

Visit Checklists

Aspire business management software helps janitorial organizations not only manage their day-to-day operations but also access enhanced reporting on critical data. The Aspire platform is also designed to simplify processes like scheduling, site inspections, and employee management.

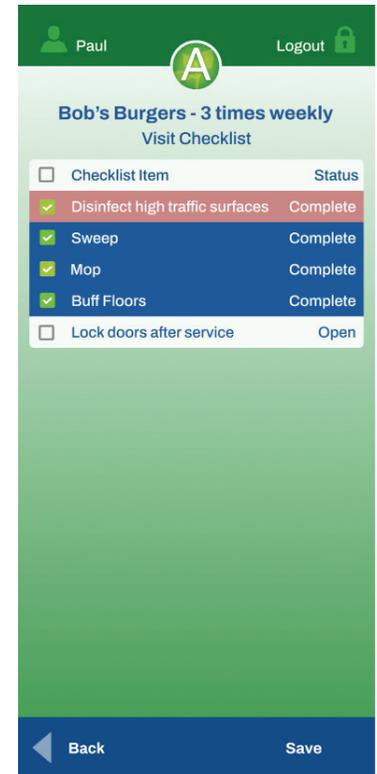

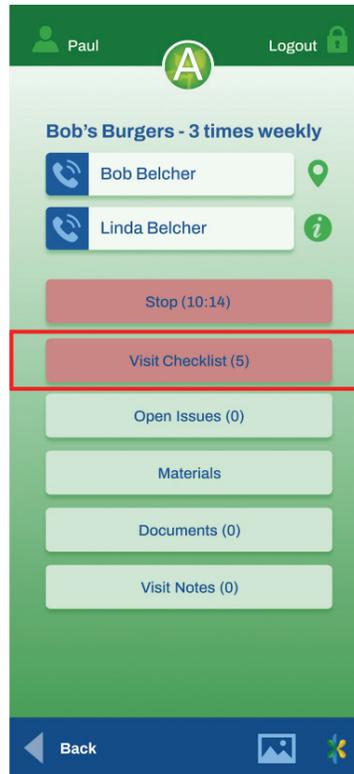

The visit checklist feature in Aspire is designed to ensure that all client work is being performed in each contract. This allows employees to quickly run down the list of tasks assigned at a specific client site and mark them as they're completed. With deeper visibility into operations in the field, office staff can ensure work is being completed on time and in its entirety.

CHECKLIST ITEM	BRANCH	DIVISION	ACTIVE	IN USE
Disinfect high-traffic surfaces	All Branches	Janitorial	✓	✓
Buff Floor	St. Louis	Janitorial	✓	✓
Vacuum	Columbia, St. Louis, California	Janitorial	✓	✓
Empty trash cans	St. Louis, California, Chicago	Flood Reclamation	✓	✓
Sweep	All Branches	Janitorial	✓	✓
Mop	All Branches	Janitorial	✓	✓

With visit checklists in Aspire, janitorial organizations can:

1. Understand daily which required tasks need to be completed
2. Respond quickly when a new staff member or a fill-in staff member performs work at a new client site
3. Receive timestamps of completed work to monitor progress and efficiencies to assist with proper scheduling and staffing
4. Determine if work was completed too quickly, potentially compromising quality and customer satisfaction
5. Realize full accountability of staff and client communications regarding work completed or neglected

Let Aspire help your janitorial business grow and provide unmatched attention and service to your clients.
